Company Introduction

Taian Risso chemical Fertilizer Co., Ltd founded in 1997. is a national key high-tech enterprise specializing in the R&D, production, sales, and agricultural services of innovative fertilizers, including NPK fertilizers, humic acid fertilizers, controlled-release fertilizers, water-soluble fertilizers, bio-fertilizers, and soil conditioner. As the drafting unit for humic acid fertilizer industry standards, the company is the largest production base for active humic acid controlled-release fertilizers in Asia, with an annual production capacity of 2.6 million tons.

At present, With 16 advanced NPK production lines and an annual capacity of 2 million tons, the company employs over 350 experts. Risso's operations extend to more than 60 countries and regions, including Japan, South Korea, Cambodia, Indonesia, India, Brazil, and Canada, earning global recognition for its innovative fertilizer solutions.

Technology Leading the Future

The company focuses on technological innovation, with four core technologies: AT Rich Soil Circulation Technology, JT Clean Soil Restoration Technology, QT Probiotic Source Technology, and KT Intelligent Blue-Black Carbon Control Technology. It has established over 20 national, provincial, and municipal -level research and honor platforms, undertaken more than 50 research projects at various levels, and led the development of 44 standards, including national, industry, local, corporate, and group standards. The company has been granted 110 patents and received over 10 provincial and ministerial-level science and technology awards.

Technology Services

Committed to the mission of "making soil healthier and crops more productive," Risso Fertilizer leverages technological services supported by its Agricultural Chemistry Academy. The company has built a three-tier training team consisting of experts, agricultural chemistry professionals, and grassroots promoters. Using demonstration comparisons and on-site observation sessions as its promotion model, it is deeply rooted in grassroots operations, providing customers with professional technical services.

ENTERPRISE MISSION

ENABLING MORE GROWERS TO

ACHIEVE GREATER BENEFITS...

We are Committed to empowering more growers by providing innovative technologies and high-quality products that enhance soil health and crop productivity, enabling them to achieve greater agricultural benefits.

At the same time, we take on the responsibility of promoting sustainable agriculture through environmentally friendly solutions, contributing to the long-term development of the global agricultural ecosystem.

R&D STRENGTH

In the past five years, Risso Fertilizer has undertaken 8 national projects, including the "12th Five-Year Plan" National Science and Technology Support Plan, the "13th Five-Year Plan" National Key R&D Plan, the National Spark Plan, and the Central Budget Investment Plan. At the same time, it has carried out extensive and in-depth scientific research cooperation and exchanges with more than 30 domestic and foreign universities and research institutes, including Shandong Agricultural University, National Agricultural Technology Extension Service Center, Nanjing Institute of Soil Science, Chinese Academy of Sciences, Nanjing Agricultural University, and University of Florida, and is committed to the research and development and promotion and application of new fertilizers at home and abroad.

CORPORATE HONORS

110 Invention Patents 2 International Patents

The company has established an exclusive intellectual property system in the fields of NPK compound fertilizers, controlled-release fertilizers, bio-fertilizers, water-soluble fertilizers, and functional fertilizers.

10 National-Level Research Projects

Six projects under the "13th Five-Year Plan" National Key R&D Program
One project under the "12th Five-Year Plan" National Science and Technology Program

4 National-Level Honors

- National Champion in NPK Fertilizer Manufacturing
- China Well-Known Trademark
- MIIT Green Design Product
- Demonstration Enterprise
- Top 10 NPK Fertilizer Brands in China

12 National and Industry Standards

Risso Fertilizer has led the formulation of 6 standards, filling the gap in China's humic acid fertilizer standards.

19 Scientific Awards and 2 First Prizes for Scientific and Technological Progress

FACTORY SHOWCASE

NPK Compound Fertilizer

【Basic Informations】

- Chemical Formula -- NPK / NP / NK
- Nutrition Content --- Nitrogen, Phosphorus, Potassium, Trace Element like MgO, Mn, Cu, Zn, Fe, MO, EDTA...
We can do OEM produce
- Appearance----- White color Granula, different colors can OEM
- Particle Size----- 2-4mm 290%
- Moisture ----- ≤2.0%
- Package ----- 25kg / 50kg /Jumbo bag
PP woven bag with PE inner bag, neutral English shipping marks. Bag also can do OEM produce
- Capatity ----- 26~27 tons/20GP container

◆Tumbling Granulation Type

◆ NPK Ratio

Balanced Ratios:

10-10-10	15-15-15	16-16-16	17-17-17
18-18-18	19-19-19	20-20-20	Others

High Nitrogen Ratios:

20-5-5	20-10-10	20-12-12	25-5-15
26-10-10	30-5-5	30-10-10	Others

High Phosphorus Ratios:

6-25-19	10-20-10	10-24-12	10-26-10
10-30-20	12-24-12	12-36-12	Others

High Potassium Ratios:

5-10-20	10-15-20	10-20-30	12-10-30
12-6-22	15-5-20	15-5-30	Others

Specialized Ratios:

5-10-10	5-15-15	5-20-20	6-24-24
10-20-20	10-26-26	12-12-17	13-27-27
20-10-20	20-20-15	20-0-18	Others

NPK Water Soluble Fertilizer

【Basic Informations】

- **Chemical Formula** -- NPK
- **Nutrition Content** --- Nitrogen, Phosphorus, Potassium
Medium Element like MgO, Ca, S..
Trace Element like Mn, Cu, Zn, Fe, MO, EDTA...
We can do OEM produce
- **Appearance**----- White Powder, different colors can OEM
- **Moisture** ----- ≤0.2%
- **Insoluble in Water**-- ≤0.2%
- **Package** ----- 5kg/25kg/40KG
PP woven bag with PE inner bag, neutral English shipping marks. Bag also can do OEM produce

◆ Product Features

- **High Water Solubility.** Made with high purity-grade and food-grade raw material.
- **Various grades of Water Soluble Fertilizer,** such as Sulphure-Based, Nitrate-Based, Urea-Based and Chloride-Based.
- **Fast and efficient absorption,** convenient application, high permeability.
- **High availability,** containing Chelated Microelements to improve the Absorption and Plant Nutrient Efficiency.
- **Environmentally friendly,** More than 60% of the nutrients can be absorbed effectively with almost no pollution to the environment.
- **Widely use for application,** drip irrigation system helps to save up 30% water usage.
- **Unique crystallization technology** helps to avoid moisture absorption and caking problem.

◆ NPK Ratio

Balanced Ratios:

15-15-15	16-16-16	18-18-18	18-18-18+3MgO+
19-19-19	20-20-20	21-21-21	Others

High Nitrogen Ratios:

20-5-15	25-10-10	28-14-14	30-10-10
30-10-10+2MgO	30-15-15	30-20-10	Others

NPK Blending Fertilizers

【Basic Informations】

- Chemical Formula --NPK / NP / NK
- Nutrition Content --- Nitrogen, Phosphorus, Potassium.
Medium Elements like MgO, S, CaO.
We can do OEM produce
- Appearance----- Colorful Granula
- Particle Size----- 2-4mm ≥90%
- Moisture ----- ≤0.2%
- Package ----- 25kg / 50KG / Jumbo bag
PP woven bag with PE inner bag, neutral English shipping marks. Bag also can do OEM produce

◆ Product Features

- Versatile Blends: Formulations suitable for a wide range of crops, including grains, vegetables, and fruits.
- Enhanced Crop Performance: Supports healthy root development, strong stems, and higher yields.
- Precision Agriculture Ready: Compatible with modern farming techniques and equipment.
- Eco-Friendly Practices: Reduces nutrient runoff and minimizes environmental impact.
- Exceptional Value: Delivers outstanding performance at a price that fits your budget.

◆ Bulk Blending(BB) Ratios

CONTROL RELEASED NPK Compound Fertilizer

【Basic Informations】

- Chemical Formula ----- NPK / NP / NK
- Nutrition Content----- Nitrogen, Phosphorus, Potassium
Medium Element like MgO, Ca, S..
Trace Element like Mn, Cu, Zn, Fe, MO, EDTA
We can do OEM produce
- Longevity----- 1M/2M/3M
- Appearance----- Colored Granula, different colors can OEM
- Moisture ----- ≤2%
- Package ----- 25kg/50kg/Jumbo bag
PP woven bag with PE inner bag, neutral English shipping marks. Bag also can do OEM produce
- Capacity ----- 26~27 tons/20GP container

Item 1: Out surface for Polymer Coat. This coat plays important role when release the nutrient. Because of the speciality of this material and precise coating process, makes the final product with perfect slow release efficiency

Item 2: inside core using our new technology compound fertilizer, makes the appearance with round and uniform size, and the coat cling with the core.

【 Product Features 】

- Polymer Coated, centre granula using our new technology compound granula, shape round and uniform.
- According to soil and weather situation, longevity has different choice.
- Continuous Nutrients (NPK) supplement for plants. Nutrients inside release slowly and constantly over several months.
- Increase Yield, Unit Income and fertilizer Use Efficiency.
- Reduce Application Times, Unit Dosage and Nutrient Loss, saves Labor
Only single application per season,
- Nutrients are protected from immediate dissolution, the polymer coat control the nutrients around the root area and slowly release.
- Enhance Root Growth, balance Endogenous Hormones, induce Floral Bud and improve Leaf Color.
- Environmentally friendly.

Liquid Foliar NPK Fertilizer

【Basic Informations】

- Chemical Formula ----- NPK/NP/NK
- Nutrition Content----- Nitrogen,Phosphorus,Potassium
Medium Element like Mg, ca,..
Trace Element like Zn, B, Fe..
We can do OEM produce
- Appearance ----- Clear colored Liquid
- Package ----- 1L/5L/25L/500L/1000L
Bottle or bucket, attach label can do OEM
12L/carton
- Capatity ----- around 20tons/20GP container

【Series Formulas】

Organic Fertilizer

【Basic Informations】

- Nutrition Content --- Nitrogen, phosphorus, potassium.
Trace elements calcium, magnesium, sulfur, iron, manganese, zinc, etc. We can do OEM production
- Organic matter ----- Optional range 30% – 50%.
- Appearance ----- Black / Green or Brown Particles
- Particle Size ----- 0.5MM-5mm
- pH value ----- 6.5 – 10
- Package ----- 10kg/25kg/50kg/Jumbo bag
PP woven bag with PE inner bag, neutral English shipping marks.
Bag also can do OEM produce
- Standard compliance: NY884-889 | 2012

【Basic Informations】

Poultry Manure Fertilizer

Specification

Organic matter	30% ~ 50%.
pH value	6.5 – 8.0
Trace elements	CA, Mg, S, Fe, Zn etc.
Humidity	20% ~ 30%.
Particle size	1 ~ 5 mm.
Temperature	15°C ~ 35°C.

Bio Organic Fertilizer

Specification

Active Microbial	≥6.0 billion CFU/g.
Organic Matter	≥50%
Product Form	Granules
Particle size	3 ~ 5 mm.
Standard	NY884-2012
Trace elements	CA, Mg, S, Fe, Zn etc.

Seaweed Fertilizer

Specification

Alginate	≥18%
Organic matter	≥45%
Solubility	≥99%
pH value	8-10
Particle size	0.5 – 2 mm
Trace elements	CA, Mg, S, Fe, Zn etc.

Microbial Fertilizer

Specification

Active Bacterial	≥200 million/g
NPK Content	20% (18-0-2)
Product Form	Powder
Active Strain	Bacillus amyloliquefaciens
pH value	7.5 ~ 9
Trace elements	CA, Mg, S, Fe, Zn etc.

Humic Acid Fertilizer

Potassium Humate Solution

Specification

Humic Acid Content ----- $\geq 12\%$
Potassium (K₂O) ----- $\geq 6\%$
pH ----- 9-11
K₂O(dry basis) ----- 1%min
Appearance ----- Black or dark brown liquid

Humic Acid For Organic Fertilizer

Specification

Active humic acid ----- 10%
Potassium ----- $\geq 3\%$
Grade Standard ----- Agriculture
Water solubility ----- 95%
PH ----- 8-9
Appearance ----- Black granular

Humic Acid Fertilizer For Water Flush

Specification

Active humic acid ----- 15%
Potassium ----- $\geq 3\%$
Grade Standard ----- Agriculture
Water solubility ----- 100%
PH ----- 8-9
Appearance ----- Black powder

Humic Acid Compound Fertilizer

Specification

Active humic acid ----- 3%
Ammonium Nitrogen ----- Customizable
Diammonium Phosphate ----- Customizable
Potassium Sulphate ----- Customizable
Water solubility ----- 96%
Appearance ----- Black granular

Humic Acid Fertilizer For Drip Irrigation

Specification

Active humic acid ----- 3%
Ammonium Nitrogen ----- Customizable
Diammonium Phosphate ----- Customizable
Potassium Sulphate ----- Customizable
Water solubility ----- 98%
Appearance ----- Black granular

Potassium Fulvate Fertilizer

Specification

Active humic acid ----- 3%
Fulvic acid ----- 55%
Potassium oxide ----- 12%
PH ----- 9-10
Water soluble ----- 100%
Appearance ----- Powder/Flake

Microbial Fertilizer

Specification

Water Soluble Humate ----- 85%
Soluble Potassium(K₂O) ----- 10-12%
Iron Chelate (Fe) ----- 1%-2%
Zinc Chelate (Zn) ----- 700ppm
Magnesium Chelate (Mg) ----- 1%
Magnesium Chelate (Mg) ----- 1%

Potassium Humate

Specification

Active humic acid ----- 60-65%
Potassium ----- $\geq 10\%$
Grade Standard ----- Agriculture
Water solubility ----- 99%
PH ----- 9-10
Appearance ----- Black flakes

Nitrogen Fertilizer

UREA

ITEMS	UREA Granula	UREA Prilled	Ploymer Coated UREA
Chemical Formula	CO(NH ₂) ₂		
HS Code	31021000		
Total Nitrogen (N)	≥46%	≥46%	≥44%
Biuret	≤1.0%	≤1.0%	≤1.0%
Moisture	≤0.5%	≤0.5%	≤0.5%
Appearance	White Color Granula	ITEMS	Colorful Granula
Particle Size	2-4.75mm ≥90%	0.85-2.8mm ≥90%	2-4.75mm ≥90%
Packing	50kg PP woven bag with PE inner bag, Neutral English shiping marks; 500kg /1000kg Jumbo bag with inner bag, Neutral English shiping marks.		
Capacity	22.5tons/20GP		

AMMONIUM SULPHATE

ITEMS	Caprolactam Grade	Steel Crade
Chemical Formula	(CH ₄) ₂ S ₀₄	
HS Code	31022100	
Total Nitrogen (N)	≥21%	≥20.5%
Sulphur (S)	≥24%	≥23.5%
Free Acid (H ₂ SO ₄)	≤0.01%	≤0.01%
Insoluble in Water	≤0.02%	≤0.5%
Moisture	≤0.2%	≤1.5%
Iron (Fe)	≤0.007%	/
Plumbum (Pb)	≤0.005%	/
Arsenic (As)	≤0.0005%	/
Appearance	White Crystal Powder	White Compacted Granula
Particle Size	0-4mm ≥90%	2-5mm ≥90%
Packing	50kg PP woven bag with PE inner bag, Neutral English shiping marks; 500kg / 1000kg Jumbo bag with inner bag, Neutral English shiping marks.	
Capacity	27tons/20GP	

※PS:

- 1.We can color the goods as customers requirements.
2. For Caprolactam Grade, we can sieve the goods, to match different particle size needs.

Nitrogen Fertilizers

ITEMS	Ammonium Chloride	Ammonium Bicarbonate	Calcium Ammonium Nitrate
Chemical Formula	NH ₄ Cl	NH ₄ HCO ₃	Ca(NO ₃) ₂ ·NH ₄ NO ₃
HS Code	3102.20	3102.80	3105.10
Total Nitrogen (N)	≥25% (NH ₄ ⁺)	≥17% (NH ₄ ⁺)	≥15.5% (NH ₄ ⁺) (NH ₃ ⁻)
Free Acid (H ₂ SO ₄)	≤0.01%	≤0.01%	≤0.01%
Insoluble in Water	≤0.02%	≤0.02%	≤0.01%

Iron (Fe)	≤0.007%	/	/
Plumbum (Pb)	≤0.005%	/	/
Arsenic (As)	≤0.0005%	/	/
Appearance	White Crystals or White Granules		White or Yellow Granules
Particle Size	0-4mm ≥90%		2-5mm ≥90%
Packing	25, 50kg Pp woven bag with PE inner bag, Neutral English shipping marks; 500kg/1000kg Jumbo bag with inner bag, Neutral English shipping marks.		
Capacity	27tons/20GP		

Magnesium Sulfate

ITEMS	Anhydrous	Monohydrate	Heptahydrate
Chemical Formula	MgSO ₄	MgSO ₄ ·H ₂ O	MgSO ₄ ·7H ₂ O
Water Content	0%	1 molecule	7 molecules
Appearance	Fine white powder	White crystalline	Colorless crystals
Solubility	Highly soluble	Soluble	Highly soluble
Common Uses	Industry, chemical processes	Agriculture, health products	Agriculture, industrial uses

Other Fertilizer

Magnesium Nitrate

Potassium Nitrate

Superphosphate

DAP Diammonium - MAP Monoammonium

ITEMS	DAP 18-46-0	MAP 12-61-0
Chemical Formula	(NH ₄) ₂ HPO ₄	(NH ₄)H ₂ PO ₄
HS Code	31053000	3105400000
Total Nitrogen (N)	≥18%	≥12%
Phosphate (P205)	≥46%	≥61%
Soluble P205	≥41%	≥58%
Moisture	≤2.0%	≤2.0%
PH Value	7.8-8.2	7.8-8.2
Appearance	Brown or Yellow Granula	White or light-colored powder
Particle Size	2-4mm ≥90%	Powder 0-1mm≥90%; Granules 1-5mm≥90%
Packing	25kg, 50kg PP woven bag with PE inner bag, Neutral English shiping marks; 1000kg Jumbo bag with inner bag, Neutral English shiping marks.	
Capacity	25tons/20GP	

MKP - Monopotassium Phosphate

ITEMS	MKP 0-52-34
Chemical Formula	KH ₂ PO ₄
HS Code	28352400
Phosphate (P205)	≥51.5%
Potassium (K20)	≥33.5%
Insoluble in Water	≤0.2%
Moisture	≤0.2%
Plumbum (Pb)	≤0.005%
Chloride (Cl)	≤0.2%
PH Value	4.3-4.7
Appearance	White Crystal Powder
Packing	25kg / 50kg PP woven bag with PE inner bag, 500kg /1000kg Jumbo bag with inner bag, Neutral English shiping marks.
Capacity	25tons/20GP

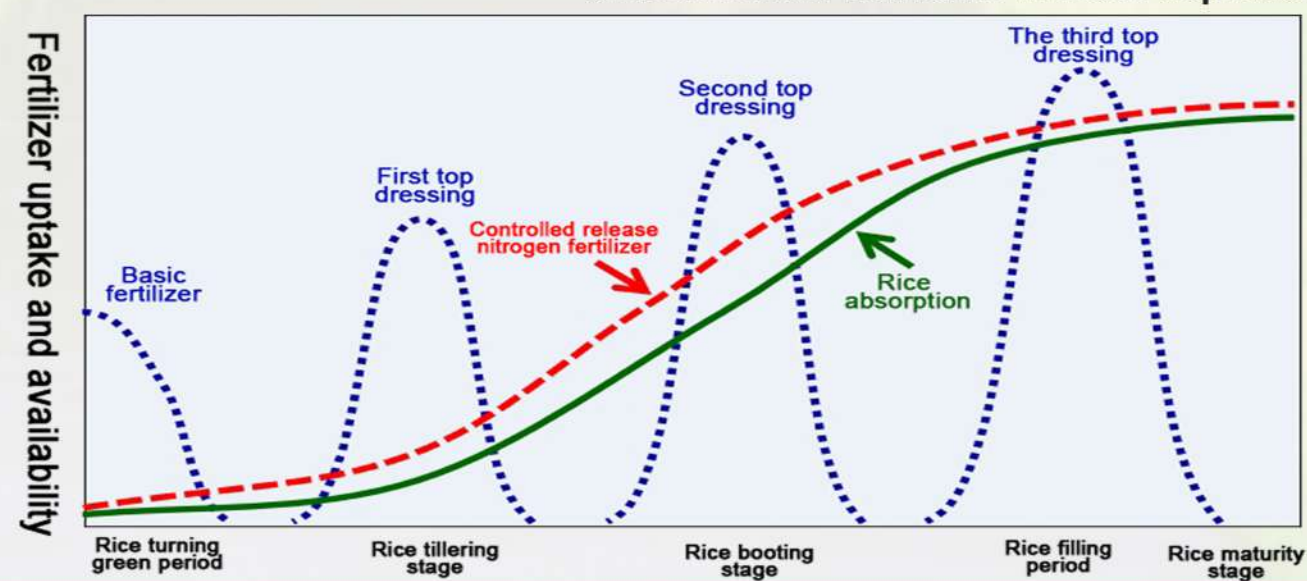

Rice-Specific Fertilizer

ITEMS	NPK 27-8-10+TE	NPK 26-10-10+TE	NPK 22-22-12+TE
Raw Material	Combining the benefits of blue-coated controlled-release fertilizer and Active humic acid compound fertilizer.		
Total Nitrogen (N)	≥27%	≥26%	≥22%
Active Humic Acid	≥3%	≥3%	≥3%
Trace Elements	Zn≥0.0% B≥0.2% SI≥0.1 Ca Mg etc.		
Packing	25kg, 50kg PP woven bag with PE inner bag, Neutral English shipping marks; 500kg / 1000kg Jumbo bag with inner bag, Neutral English shipping marks.		

One-time fertilization, No topdressing required, providing balanced and sufficient nutrients without depletion.

In the seedling stage: active humic acid promotes strong root development with steady growth.

In the mid-growth stage: sufficient nutrient supply, increased tillering, sturdy stems, and vigorous growth.

In the later stages: consistent nutrient supply, delayed senescence, full grains, more panicles, and resistance to lodging.

Corn-Specific Fertilizer

Common Fertilizer Dosage

ITEMS	Nitrogen	Phosphorus	Potassium	Trace elements
Sowing and Seedling Stage (0-20 days)	Urea 120 kg/ha	DAP 120 kg/ha	/	Zn 5-10 kg/ha
Vegetative Stage (20-40 days)	Urea 150-225 kg/ha	DAP 150-225 kg/ha	KCl / K ₂ SO ₄ 75 kg/ha	Spray 0.1%-0.2% zinc sulfate solution
Tasseling and Flowering Stage (40-70 days)	Urea 225-300 kg/ha	DAP 50 kg/ha	KCl / K ₂ SO ₄ 120-150 kg/ha	Boron Fertilizer 2-5 kg/ha
Grain Filling Stage (70-100 days)	Urea 75-150 kg/ha	DAP /	KCl / K ₂ SO ₄ 75-120 kg/ha	MKP Spray 0.3% MKP
Maturity Stage (After 100 days)	/	/	/	/

NPK Fertilizer Dosage

ITEMS	NPK 16-16-8	NPK 26-10-12+TE	NPK 12-12-17+TE
Sowing and Seedling Stage (0-20 days)	225-300 kg/ha	/	/
Vegetative Stage (20-40 days)	/	300-450 kg/ha (TE contains elements such as Zn and B)	/
Tasseling and Flowering Stage (40-70 days)	/	300 kg/ha (TE contains elements such as Zn + B + S + Mg)	/
Grain Filling Stage (70-100 days)	/	/	150-225 kg/ha (TE contains elements such as Zn + B + S + Mg)

Why Choose Corn-Specific Fertilizer?

Seedling stage stable

Stable

Late stage stable

Mid stage stable

In the seedling stage: active humic acid promotes strong root development with steady growth.

In the mid-growth stage: sufficient nutrient supply, increased tillering, sturdy stems, and vigorous growth.

In the later stages: consistent nutrient supply, delayed senescence, full grains, more panicles, and resistance to lodging.

QUALITY CONTROL SYSTEM

Risso - Your Reliable Partner

Risso (Taian RissoChemical Fertilizer Co., Ltd.,) recruits partners from all over the world, adheres to mutual benefit and win-win, expands practical cooperation, cooperates, supports and trusts each other, and achieves common development. We sincerely look forward to your joining!

Partners We Cooperate With

<p>Fertilizer Brand & Importers Trust our premium, globally-recognized fertilizers for consistent quality and timely delivery.</p>	<p>Fertilizer Distributors & Wholesalers Partner with us for unbeatable bulk pricing, product variety, and market edge.</p>	<p>Large-Scale Farmers Optimize yields with our scientifically-formulated, tailored fertilizer solutions for expansive farms.</p>	<p>Agricultural Cooperatives Optimize yields with our scientifically-formulated, tailored fertilizer solutions for expansive farms.</p>
<p>Landscaping Companies Elevate every project's beauty and health with our specialized, transformative fertilizer blends.</p>	<p>Nurseries & Garden Centers Supercharge plant growth and sales with our top-tier, growth-enhancing fertilizers.</p>	<p>Golf Courses & Sports Turf Managers Achieve consistently lush, championship-worthy greens using our elite turf formulas.</p>	<p>Agri-Supply Store Reliably stock the best; our renowned fertilizers guarantee customer satisfaction and brand loyalty.</p>

Partner Benefits

- **Brand Advantage:** One of China's largest and fastest-growing fertilizer manufacturers.
